

What is claimed is:

1. A pair of goggles comprising a frame and a wearing portion, the frame including at least one loop portion, at least one lens unit being received in said at least one loop portion, said at least one lens unit including an isolated empty chamber for providing the pair of goggles with buoyancy and thus enabling the pair of goggles to float on water.
2. The pair of goggles as claimed in claim 1, wherein said at least one lens unit includes two lenses and an airtight spacing loop securely sandwiched between the lenses, thereby defining the isolated empty chamber.
3. A pair of goggles comprising a frame and a wearing portion, the frame including a loop portion, a lens unit being received in the loop portion, the lens unit including an isolated empty chamber for providing the pair of goggles with buoyancy and thus enabling the pair of goggles to float on water.
4. The pair of goggles as claimed in claim 3, wherein the lens unit includes two lenses of one-piece type and an airtight spacing loop securely sandwiched between the lenses, thereby defining the empty chamber.
